

# LiveCycle (AEM Forms 6.1) Administration

**Course description:** Are you getting the most out of your Adobe LiveCycle or AEM Forms system? Is your system performing in an optimal way and is it fully integrated with your other enterprise software? Do you have your LiveCycle services and workflows configured with AEM (Adobe Experience Manager) Forms? Learn the secrets of properly configuring, managing, tuning and optimizing your LiveCycle server(s). This 2-day course will help you realize the full value of your Adobe LiveCycle and AEM Forms investment.

**Target audience:** LiveCycle Administrators, IT/Systems Administrators, Technical Support Staff and LiveCycle developers who need to learn more about setting up and maintaining a LiveCycle or AEM Forms server with LiveCycle services and workflows..
