

Adobe Digital Skills Assessment

AEM Forms Administration

Digital is changing at lightning pace, and teams need a way to calibrate skills and target learning for high-impact progress. Is your team ready for next-generation digital marketing? Find out where you stand with Adobe's free Skills Assessments.

The following questions are examples of the types of questions you will master by taking the 3-Day *AEM Forms Administration* course. To properly cement your knowledge and expertise, you should take the course with an *Adobe-Certified Instructor* and then study the 150 page Student Manual for an equal amount of time.

Publishing & Replication

1. List the nine CRXDE package filters you must create in order to properly replicate a Forms Portal application from an *Author* instance to a *Publish* instance.

2. List updates you need to make to the *dispatcher.any* file to successfully publish AEM Forms to your web server.

3. What two port numbers are typically used for replicated Publish servers?

Process Workflows (OSGI and JEE)

Please note: The 3-Day course can be taught with an emphasis on either the OSGI or the JEE platforms, or with a combination of both technology stacks. We can also emphasize JEE or OSGI workflow, or teach you both workflow types and tools.

4. List the steps you must take to set the Submit Action of an adaptive form to *Invoke a Forms workflow*.

5. List the steps you must take to set the Submit Action of an adaptive form to *Invoke an AEM workflow*.

6. What are the possible endpoints for an AEM Forms service?

System Configurations

7. You need to integrate Microsoft SQL Server with your AEM Forms application. What is the name of the file that you use for your data source configurations?

8. What is the name of the batch file you should run before configuring PDF Generator?

9. What is the name of the software that Adobe provides to integrate Microsoft SharePoint with your AEM Forms applications?

10. You need to change your Super Administrator password. List all the locations where you need to perform the password update.

11. Can you synchronize AEM users and groups with your LDAP system?

System Monitoring & Security

12. What tool do you use to create and update Maintenance tasks?

13. What are some best practices for system monitoring?

14. What are some best practices for system security?
